Motto of the Vidya Prasarak Samiti**VIDAY PRASARAK SAMITI EMBLEM**

- The emblem on its forehead consists “«zÁâ ¥Àæ,ÁgÀPÀ ,À«Äw”. The name of the Samiti indicates the objective for which it is born.
- The vision of Viday Prasarak Samiti proclaims “«zÉâAiÉÄÃ “Á½£À “É¼ÀPÄÄ”, that the Samiti believes in “Education is the light of life”
- The centre piece of emblem is burning flame which symbolises the perennial process of learning to gain knowledge. Further it indicates the process of taking the generation from darkness to light.
- The flame is in between the earth and the sky, which are standing for unlimited universe, is bountiful and creative. It is the completeness of life.

Vision & Mission of the College**Our Vision****NATIONAL INTEGRATION AND DEVELOPMENT THROUGH EDUCATION****Mission**

- To infuse knowledge through curriculum, attitudes through co-curricular activities, life skills and values through extension activities.
- To adopt new scientific pedagogy.
- To inculcate values of social responsibility free from caste, creed, sex and status.
- Fostering global competency among students though ICT.

Goals/Objectives

- To strengthen national identity and preserving cultural heritage.
- To prepare the students for democratic way of life.
- To make the students employable and socially responsible.
- To link education with life skills.
- To develop research culture and scientific temperament among the students.

College, Ramdurg**

Introduction

The Vidya Prasarak Samiti, Ramdurg, was established in the year 1965 with the sole aim of promoting higher education in the largely rural socio-cultural environment prevailing in the region of Ramdurg and its neighbourhood, the erstwhile Samsthan of the former Maratha province. During the colonial period the Samsthan had remained at the periphery of development and continued to be so even after Independence and reorganization of states in Independent India. The region despite agricultural prosperity continues to retain the 'backward area' tag. Modernity has remained a far cry even today. Realizing the fact that promoting literacy among the local population and that education is key to development, the enlightened members of the Vidya Prasarak Samiti took firm steps with the motto 'education is light of life', to start colleges and schools. The Samiti was fortunate in inheriting the royal palace that stands an eloquent testimony to the historical legacy of the region, to house its first educational Institution, C.S. Bembalagi Arts College. A couple of years later, Sha Motilal Raichand Palaresh Science College (1968) and five years later, G.L. Rathi Commerce College (1970), were started, all under one roof, the royal palace in the bustling fort area of Ramdurg town.

During the last fifty years the Samiti has not only nurtured this composite college but has also added a series of educational institutions ranging from kindergarten I to under graduate College. A couple of these institutions are located in the rural settlement of Godachi. Among these the Arts College has completed fifty years of yeomen service and the Samiti is proudly celebrating its golden jubilee by promptly responding to contemporary needs of higher education. The college with its nucleus in the royal palace has spread over newly constructed buildings covering an area of 2900 sq. m, the built-up area covers 2037 sq. m. To date the Samiti has established ten educational institutions and has contributed to promoting literacy and employability of the rural folks. Admission to various courses is governed by the roster system of the government of Karnataka and special attention is given to underprivileged class of students. There are eight departments in Arts Faculty, three departments in Science Faculty and one department in Commerce Faculty. B.A. in education is the unique feature of the various courses offered by the institution.

This composite college offers undergraduate courses in the arts, sciences and commerce. To date there are 3544 students and is facing stiff competition from the government colleges which are successful in attracting students from economically weaker sections of society. There are as many as 220 administrative staff. The Samiti's Board of Management and College Governing Body oversee the administration and development of the institution. Presently the institution is affiliated to Rani Channmma University, Belagavi. This is a grant-in-aid, self-financing and coeducation college and has UGC recognition under 2(f) and 12(b). The college administration has taken steps to start post-graduate courses, approval from the RCU is awaited.

The college is now preparing for the third cycle of accreditation by the NAAC. It has been accredited at B level during the previous two cycles.

There are 40 substantive teaching positions and 22 non-teaching positions. Among them thirteen teaching and 13 non-teaching positions are vacant. In order to overcome shortage of staff 22 guest faculty and 14 non-teaching staff have been recruited by the management. Student admission record for the last five years reveals a steady decline on the one hand and the dropout rate is on the increase on the other. This is an alarming situation that needs to be addressed effectively by the faculty and management. The overall student teacher ratio for B.Sc. course is 1:11, for B.A. is 1:10 and for B. Com. is 1: 3.

Goals and Objectives

The following are the goals and objectives of the institution:

1. To strengthen national identity and preserving cultural heritage.
2. To prepare the students for democratic way of life.
3. To make the students employable and socially responsible
4. To link education with life skills
5. To develop research culture and scientific temper among the students

Infrastructure

In addition to the old palace building the college has a modern annex, indoor stadium, playground, multi-gym facility, language laboratory and library. The UGC grant for girls' hostel has been fully utilized. However, the majority of girl students are day scholars. The new building has provision for cafeteria, health centre, seminar hall and

auditorium. Generator unit, waste water management and water harvesting facilities are provided.

The college premises is situated in the crowded and busy area and the building complex is put to multiple uses during the day causing inconvenience to running undergraduate classes. Access to different buildings needs to be disable friendly with ramps. Toilets, washroom and waiting hall for girls though provided require upgradation.

The college library has a good collection of basic text books for the benefit of students. There is one audio-visual fitted hall for academic and cultural activities.

The library reflects a dynamic environment and is responding to the developments in library equipment and management. There are more than 45,000 books and new publications are acquired every year. The library has subscribed to many journals, periodicals, news papers and magazines of relevance. E-library and internet facility is also provided.

Computer lab provides training to students of all the branches, and it is included in the curriculum. Wi-Fi facility and sport and game facilities are provided.

Teaching-Learning

The curricular and co-curricular activities of the college are in accordance with the calendar of events issued by Rani Channamma University. In addition the college administration and the faculty make sure that special activities are conducted to meet the specific needs of the local students. Field trips, study tours, industrial visits and organization of symposia, workshops involving students is the positive aspect of the teaching-learning programmes of the college. Extension activities to help the rural folk also involve student participation. As envisaged in the mission statement of the college students are provided with opportunities to shape their future, increase their skills and employability. It is noteworthy that both students and faculty are encouraged to present research papers in national and state level seminars and also publish. This is important for faculty enrichment and improvement. Nine faculty members have Ph.D.s and 8 have M. Phil. qualifications.

Remedial coaching classes for the needy are engaged by the college faculty as well as invited guest speakers from outside. The college miscellany called *Chiguru* is

published annually. This is a joint venture of students and teachers. It helps expose the literary talent and creativity of the young minds in particular. A variety of scholarships are instituted for the benefit of deserving students.

Academic and Administrative Audit

The UGC X five year plan document has mandated the importance of academic and administrative audit and directs all the higher education institutions to undergo AAA every year. In view of this the college authorities constituted the AAA committee for the year 2014-15 comprising the following members.

1. Prof. C.R. Karisiddappa, Professor of Library and Information Science (Retd.) (KUD),
Chairman
2. Prof. Ravi Korisettar, Professor of History and Archaeology (KUD), member
3. Prof. J. S. Kadadevaramath, Professor and Director, CDC (KUD), member

Three members from the college were also included in the committee. They are as follows:

1. Dr. S.P. Murari, IQAC, Co-ordinator
2. Dr. (Smt) R.S. Gudagannavar, NAAC Co-ordinator
3. Shri. I.S. Nijaguli, Office Supdt

Following the invitation from the principal, the audit work was carried out on 28th March 2016.

The day-long work began with an interaction meeting with the Principal, Professor V.P. Karajagi. He gave a bird's eye view of the progress of the institution during the academic year 2014-15 and also presented the roadmap he has prepared for the coming year. He was also assisted by the director IQAC cell and coordinator of reaccreditation for the third cycle. Following the chairman of the AAA Committee, Professor C.R. Karisiddappa introduced the procedural details of the ensuing audit work to be carried out by the team.

The team visited all the sections of the college, identified both positive and negative aspects of the existing system and gave particular attention to teaching-learning, student support systems and general administration. Existing infrastructural facility, new additions to it and ongoing developmental projects were visited before the lunch break.

The Committee also had a luncheon interaction meeting with the college governing council and the committee briefed the council to take effective steps to further improve the infrastructure and other academic requirements, especially filling up of vacant posts, to be vigorously pursued with the government of Karnataka.

During the post-lunch session the Committee interacted with all the college faculty, including the non-teaching and recorded their activities for an assessment. The teaching faculty very enthusiastically interacted with the Committee and presented their self-assessment.

After the daylong inspection work the AAA Committee prepared the Report for the year 2014-15 by summarizing its observations with a note of recommendation.

Language Laboratory

Computer Lab

Gym Hall

Library

Overall Observations and Recommendations

Observations

1. College is having minimal infrastructure for innovative teaching and learning like digital display board, Smart board and LCD.
2. Library ably supported by e-resources and internet connectivity.
3. Ladies room is fairly provided with some basic facilities
4. Poor condition and maintenance of laboratories
5. No logbooks are maintained for the use of equipment's, computers with Internet connectivity and printers.
6. College is located in a crowded place.
7. Welfare facilities for the employees are not extended by the management
8. Management has taken care of providing suitable (teaching and non teaching) temporary staff in place of vacant positions.
9. Planned construction work to improve the physical infrastructure is under process.
10. Students performance in sports and games is admirable
11. No residential provision for the teaching and non-teaching staff

Inauguration of AAA Committee Visit: by Dr.C.R.Karisiddappa Chairman AAA Committee

Recommendations

1. Longstanding vacancies be filled on priority bases
2. UGC facilities for starting the job specific and area specific courses may be explored
3. Class rooms of science departments and laboratories including furniture and fittings needs immediate attention to shift to the new building.
4. Cleanliness may be considered on top priority
5. Availability of IT infrastructure may be strategically used for the systematic e-governance and ease the complex processes of admission, examination and financial transaction.
6. To demonstrate the optimal utilization of the equipment computer systems and the internet/Wi-Fi facility, each department needs to maintain the logbook
7. Periodical staff meetings with the fixed agenda needs to conducted and proper recording of the deliberations be maintained.
8. Central high power committee be formed to monitor the activities of supported services and its actual utilization from the stake holders.
9. Minimum benefits of the welfare facilities be extended to the employees

AAA committee interaction with Members of College Management

Observations

1. Academically active department with two permanent and two guest faculties
2. Involved in innovative teaching
3. Conducting remedial and coaching classes to the needy students
4. Undertaken research projects and organized seminars and conferences
5. Executing the social responsibility is admirable

Recommendations

1. Department may be encouraged to start short term courses in functional English, business English, spoken English
2. Language laboratory has to have the schedule of the teaching learning for different classes in different subjects
3. Resources suitable to the purpose is explored from the National Institutes in Language and Literature.
4. Inter departmental research and publication activities many be initiated to promote native art, culture and literature.
5. Programs to enrich the students' personality and soft skills be further encouraged.

Infrastructure: Shared common facilities

Classrooms, computers, other equipments for teaching facilities

Observations

1. Teaching programme by the faculty is quite satisfactory.
2. Department has conducted UGC sponsored national level seminar in which eminent speakers from premium research institutes and University have participated as resource persons.
3. Students are allowed to participate in science quiz and Vedic mathematics seminar.
4. Faculty extended their active participation in coordinating IQAC and services to NCC.
5. Student feedback is missing

Recommendations

1. Qualified faculty to be recruited.
2. Students are to be encouraged to participate in project based learning.
3. Efforts to be made by the faculty to procure UGC funded projects.
4. ICT enabled teaching relating to physics be incorporated.

Inaugural Session of UGC Sponsored National Level Seminar in Physics

FACULTY OF SOCIAL SCIENCE

Infrastructure: Shared common facilities

Classrooms, computers, other equipments for teaching facilities

Observations

1. One girl student secured first rank during 2014-15 B. Com. Final year examinations conducted by Rani Channamma University, Belagavi.
2. The department organized two UGC sponsored national seminars, one on marketing and another on banking, many senior faculty from other institutions participated in the event.

Recommendations

1. The faculty should make efforts to publish their research.
2. Faculty should follow suit of other departments by encouraging students to participate in seminars and workshops
3. Optimum utilization of ICT and modern teaching methods need to be implemented.
4. Separate cubicles for the faculty are to be provided by the administration.
5. The department should have its own vision and mission statements for the five period.
6. Alumni and parent teacher interactions are to be recorded with more at least two sessions in a academic year. NSS and sport participation of students needs to be encouraged.
7. Alumni and parent teacher interactions are to be recorded with more at least two sessions in a academic year. NSS and sport participation of students needs to be encouraged.

Infrastructure: Shared common facilities

Classrooms, computers, other equipments for teaching facilities

Observations

1. Students are allowed to participate in national and state level seminars, symposia and workshop.
2. Students are encouraged to present research papers. Faculty are also active in these academic activities.

3. Workshops and seminars on various aspects of history of the region are also organized by the department.
4. Each of the faculty have published research paper and have published their papers in proceedings and edited volumes.
5. Research papers though short essays have also been published in online journals. The student teacher ratio is very low.
6. Given these observations it appears that there is good coordination between the faculty and administration. Special lectures by invited speaker are the hallmark of the academic activities.
7. Faculty have undertaken UGC sponsored research projects. Two of the faculty have PhDs.

Recommendations

1. The faculty and administration need to make extra efforts to attract students to opt for this subject as the enrolment is on the decline.
2. Optimum utilization of ICT and modern teaching methods need to be implemented.
3. Separate cubicles for the faculty are to be provided by the administration.
4. The department should have its own vision and mission statements for the five periods.
5. Alumni and parent teacher interactions are to be recorded with more at least two sessions in a academic year. NSS and sport participation of students needs to be encouraged.

UGC Sponsored workshop on Farmers Suicide; Reasons and Remedies

SUPPORTING SERVICES

PHYSICAL EDUCATION

Observations

1. Keen interest shown in sports and games by students
2. Consistently the students are selected as university blues
3. Students have participated in National and international level.
4. College has organized few inter college and university level sports meets
5. College sports ground is away from the college premises.
6. Considerable students particularly science students are deprived of the sports facilities.
7. GYM for men is not in the usable condition (it is not cleaned for months).

Recommendations

1. Sports and games be encouraged with proper orientation and incentives
2. GYM facility to the ladies is to be extended with improved gymnastic hall
3. Yoga course can be introduced as yoga practice has gained momentum in the college
4. Proper documentation of sports and games conducted as well as the progression of the students in sports needs to be maintained.
5. Being the lead college in the rural background, sports department may concentrate the revival of the rural sports
6. Facilities available in national and state sports authority/organisations may be explored to develop sports infrastructure.

University Blues for the year 2015-16

I A PURANIK LIBRARY

Observations

1. Fairly organized library with need based collection.
2. Functional library committee is in place
3. N-List facility is subscribed
4. Library is partially automated
5. Internet connection to the library systems is indeed a point of attraction.
6. Suitable selected journals and magazines are subscribed.
7. Library records are well maintained.
8. Suitable Qualified librarian and the committed staff have maintained the library clean and tidy.

Recommendations

1. library hours may be extended for another two hours
2. Annual budget of the library be enhanced.
3. Kindle reader devices be procured to encourage the use of e-resources.
4. Regular display of available open sources and subject based resources be made in the library and also in all the departments
5. Special attention can be given to procure more number of competitive examination books and other resources
6. Periodical information literacy programs be arranged for both teachers and students to familirise them with the available information sources (print and E-resources)
7. Library staff be encouraged to organize workshops, seminars by seeking assistance of UGC, INFLIBNET, NAAC and State Government.
8. Provision for a media room in the library help the students access the open educational resources for the benefit of the students and teachers

A library is the delivery room for the birth of ideas, a place where history comes to life

-Norman Cousins

NCC/NSS Units

Observations

1. NCC/NSS started since the inception of the college, disciplined and committed officers have laid a strong foundation.
2. Students are showing interest in joining the NCC/NSS.
3. NCC Cadets are showing progress in successfully completing the “B” and “C” Exams.
4. NSS volunteers have contributed much in the services camps.
5. NCC/NSS camps have motivated the students and the public

Recommendations

1. NCC/NSS units be provide with suitable place to display and project the performances
2. Proper documentation of cadets progression needs to be maintained
3. Social service aspect be further improved by seeking the help of some popular movements
4. Further efforts needs to intensified in preparing the students to represent in National event
5. NCC/NSS units can pay attention to maintain the directory of the past students

Blood donation Camp; Organized by College NCC and NSS Units

Computer Laboratory and Language Laboratory

These are the essential facilities used well by the students and teachers. Computer laboratory with internet connectivity enabling the students to access the large scale information for their project works and other academic assignments. The problem is that there is no suitable records to assess the use of computer laboratory by the students. To facilitate the easy access to computers and to draw useful information for teaching learning, suitable guide sheets can be displayed near all the computer systems. More over this laboratory can be used for training the non-teaching staff to familiarise with use of computers. If there is a demand from other working community in different public and private organizations can offered a short term training after academic classes in order use the resources optimally as well as generate the revenue to the college.

Language laboratory is used by all the language departments. But efforts are not being made to acquire suitable software and also other learning packages from the national and regional language institutes. EMRC and AVRC teaching-learning materials and the free packages from Central Institute of English and Foreign Languages (Hyderabad) and Institute of India Languages (Mysore) are of immense use for the students to learn the languages better. Basically the language laboratory has to be ready with the planned time table and the learning components which is not available in the laboratory.

Both the laboratories needs a serious planning and programming to enhance the quality of computer application and language learning.

Ladies Hostel

The hostel facility for the girl students is provided by the college. The majestic building in thickly people place in the town utilizing the UGC grants is indeed a major effort of the Management. But its utility is considerably less. Even the other alternative planning is not taken seriously by the concerned authority. The reasons for the under utilization of the hostel is that it is not economically viable when Govt supported hostels are available well within the affordable cost of the students.

SC/ST Cell

The college is exploring all possible provisions to provide facilities to SC/ST students. There is no problem to the students in utilizing the facilities. The cell is actively supporting students and conducting coaching classes, remedial classes apart from arranging invited lectures from time to time. It is essential on the part of cell to maintain the directory of the students as well as their progression to the higher education or entry in to the job market. A comprehensive and fact based description may be given place in the college annual report.

Grievances Redressal Cell

The college is showing much concern to redress the grievances of the students and employees. Periodical scrutiny of the complaints lodged personally or through letters or written complaints dropped in the suggestion boxes is taking place under the supervision of the Principal and other members of the Committee formed for the purpose. The interaction with the students and the employees revealed that there is no problem in this regard. Many of them have expressed their satisfaction that their grievances are peacefully settling the concerned settled.

Students Welfare Council

This council consisting of student representatives and the staff taking keen interest to facilitate the students to utilize the provisions of UGC, State Government and the University. Apart from promoting co-curricular and extracurricular activities this council is strictly monitoring ragging incidents in the college. Major problem observed in the activities of the cell is not keeping the record of the events and maintaining the proper documentation.

In addition to the students welfare council, College gymkhana is very active and providing the good platform for young talents in sports, games and cultural activities. Exclusively formed Committee under the dynamic leadership of the principal is conducting various co-curricular and extracurricular activities. Again it is needless to state here, this unit also needs to keep the proper record of the activities and the correct picture of the students who have brought laurels to the college in different sports, games and cultural events.

Alumni Association

Being a senior college over the years sizable students have successfully completed their education. In the best tradition of the college, the Alumni association was formed much earlier and there is a set practice of convening the meeting of the association annually. The worth appreciating contribution of the Alumni Association is the institution of three scholarships of Rs 300/- each for the poor and deserving students of in Arts, Science and Social Science subjects. It is observed that there are hardly any proceedings recorded as for as the events conducted from time to time. So also the college has not maintained the directory of the students passed out of the college. Serious attention needs to be given for exploring the contributions of the past students who are well placed in their jobs, for the benefit of curriculum enrichment, infrastructure development and placement of the new products.

Scholarships and other Welfare Funds

Vidya Prasarak Samiti is very thoughtful of providing the financial assistance to the poor and deserving students through the poor student's welfare fund. Enough of efforts are made to take the help of apostles of education and philanthropists to provide the endowment cash prizes to the deserving students. In addition, college is very prompt in availing the Central Government and State Government scholarships and facilitated the promising and deserving students. Still there are many other avenues for availing the financial assistance for the students under various schemes. College has to look into the details by surfing the websites of various Government and Social organizations to get more and more facilities.

Employment Information and Placement Cell

The College has taken suitable steps to establish the cell under the care of student's welfare officer. Few programmes have been conducted in appraising the details to the students. Much remains to be done in this regard. University Employment Information and Carrier Guidance Section is always ready to help the college in this regard. It is strongly suggests that this has to be given much importance and useful programmes have to be regularly conducted by seeking the help of university and other concerned organizations. This will certainly benefit the aspiring students of Computer Science, Commerce and other subjects.

Administrative Section

The administrative section of the college is well organised and carrying out the day to day work without any problem. The section is handed by an experienced office Superintendent Shri. I.S. Nijaguli who is working here for over 3 decades. There are 4 permanent staff supported by 15 temporary staff. Management has shown keen interest in introducing e-governance to a larger extent. Admission, examination, Salary and Scholarship and other financial transactions are automated and transparent. Some of the staff when interacted expressed their satisfaction with work environment and coordinate and subordinates relationship. Adequate facilities are extended to all the employees to work efficiently. Frequent ICT training, exposure to the new office procedures have changed their mindset. However the Management may insists on the office superintendent to introduce maintaining the work diary, making them known about the complexities of rules and regulations with reference to the transactions with University, Director of the Collegiate Education and the UGC. Administrative Section may move ahead with despending with paper work and promote e-governance.

Submission of Report: by AAA Committee members

Acknowledgements

We the members of the AAA Committee wish to record our appreciation and gratitude to Prof. V.P. Karajagi, Principal, C.S. Bembalgi Arts, SHA M.R. Palaresha Science and G.L. Rathi Commerce College, Ramdurg for his kind gesture and confidence in the Committee and entrusting the responsibility of conducting the Academic and Administrative Audit. We wish to thank him for his dynamic leadership and commitment to develop the college on sound footings. We also take immense pleasure in thanking Dr. Sadanand Murari, Director, IQAC and all the members of the teaching and non teaching staff for their cordial treatment and cooperation in conducting Audit process. We sincerely wish to record our admiration to the forward looking and ever dynamic Management Council of the college.
